Round, 26 AMERICAN LEAGUE CRY. No Rival Manager Willing to Admit the Race is All Over.

Cincinnati, March 21.—In one of two decisions made public today by the national baseball commission a new rule was adopted affecting players known as free agents.

Plever Charles A. Deal complained to the commission that while a free agent with the Philadelphia agent he signed with the Philadelphia National league team at a stipulated. newcomers. All seven have been told that the Philadelphia National league team at a stipulated salary for the playing season of 1812. On reporting on March 2 to go on the training trip with the team he was informed that he had been released to the Lancaster team of the Tri-State league at a salary 50 per com less than he had signed for.

The commission annulled the release to the Lancaster club and residered Deal to his status as a free agent. The rule adopted declared that a free agent who signs a contract with a national agreement club and is transferred without his consent to mother club, or is released without a trial, shall be declared a free agent if the club to which he is released does not assume his salary his original contract calls for.

ACTIVE ISSUES SOAR. Attain Their Highest Average Level Since Last November.

New York, March 21.-There was New York, March 31.—There was some cessation today of the upward movement in the stock market, which had its inception about a fortnight ago. Quotations were on a moderately large scale, and were characterized by greater breadth and signs of increasing public interest. Individual investors and the important financial institutions of this city and stewbers. stitutions of this only and disewhere probably gave the list no small part of the early strength. The twenty odd active issues which are commonly accepted as real factors of influence at-tained their highest average level since

Activity centered around these shares, although he specialties were not neg-sected, as was shown in a further rise American Can preferred, which es-blished a new high record for that security. The great bulk of the trad-ing, however, was in United States Steel, Reading, Labigh Valley, Union Pacific, Amalgamated Copper and Am-erican Smelting. The continued adance of the coppers was a further! reflection of conditions in that indus-try at home and abroad, while the strength of Smelters, which went to the highest figures since last July, was attributed to another advance in the price of lead products, as well as the mpany's unexpected good showing

Demand for Steel, the Coalers, Unon Pacific and other standard issues was persistent. In the case of the oal shares it was said to be predicaton the fixed belief that an agree-nent is at hand between the anthra-ite coal owners and the miners. Another factor favoring the rise in these stocks was the announcement that the federal administration had decided not to intervene in the differences between the workers and their employers, thereby removing a political element that had been viewed with some

Following its usual course, the marivet grew dull in the late afternoon, with general recessions throughout the list, except in Lehigh Valley, which went to its highest figure. Other standard lessus lost much of their gain, and n such cases as Steel, Reading and Inion Pacific sold under the previous day's closing quotations. The reaction, while hardly promounced, was a matural result of the heavy realizing, togother with short selling. The tone the close was inclined towards

This market derived scant encouragement from abroad, even though London bought here on balance to the extent of 25 000 shares, chiefly conain tone because of the political at-ation, which pointed to the possibil-y of a ministerial crists. Such au-utsome, it is thought, might hasten setlement of the coal strike.

IF YOU NEED A MEDICINE. YOU SHOULD HAVE THE BEST

Although there are hundreds of preparations advertised, there is only one that really stands out pre-sminent as a remedy for diseases of the kidneys, liver and bladder.

Dr. Kilmer's Swamp-Root stands the highest, for the reason that it has proved to be just the remedy needed in thousands upon thousands of even the most distressing cases.

Swamp-Root makes friends quickly because its mild and immediate effect is soon realised. It is a gentic healing vegetable compound.

Dr. Kilmer's Swamp-Root is a physicians prescription for special diseases, which is not recommended for everything. Fraits and Vegetables.
